## SuperCook

EP1100

The SuperCook by Espressions harbours many kitchen appliances in one. Next to blending, ice-crushing, beating, mixing and emulsifying you can easily create entire meals. From delicious soups, risotto with steamed vegetables to a light and fluffy sabayon. The many possibilities of this machine are impressive.

The SuperCook is the ideal sidekick to a professional chef. Delicate sauces are heated at just the right temperature while they are being stirred or beaten.

Making sorbets, beating eggwhites, melting chocolate and grating parmesan become a quick and easy task as well.

The Yumi control module and Yumi App make it easy to create recipes and add them to its memory. Register at the SuperCook website for the latest updates and recipes.

- 500 Watt for mixing
